

HempWool

2020 Lookbook

A difference you
can feel...

Performance you
can trust.

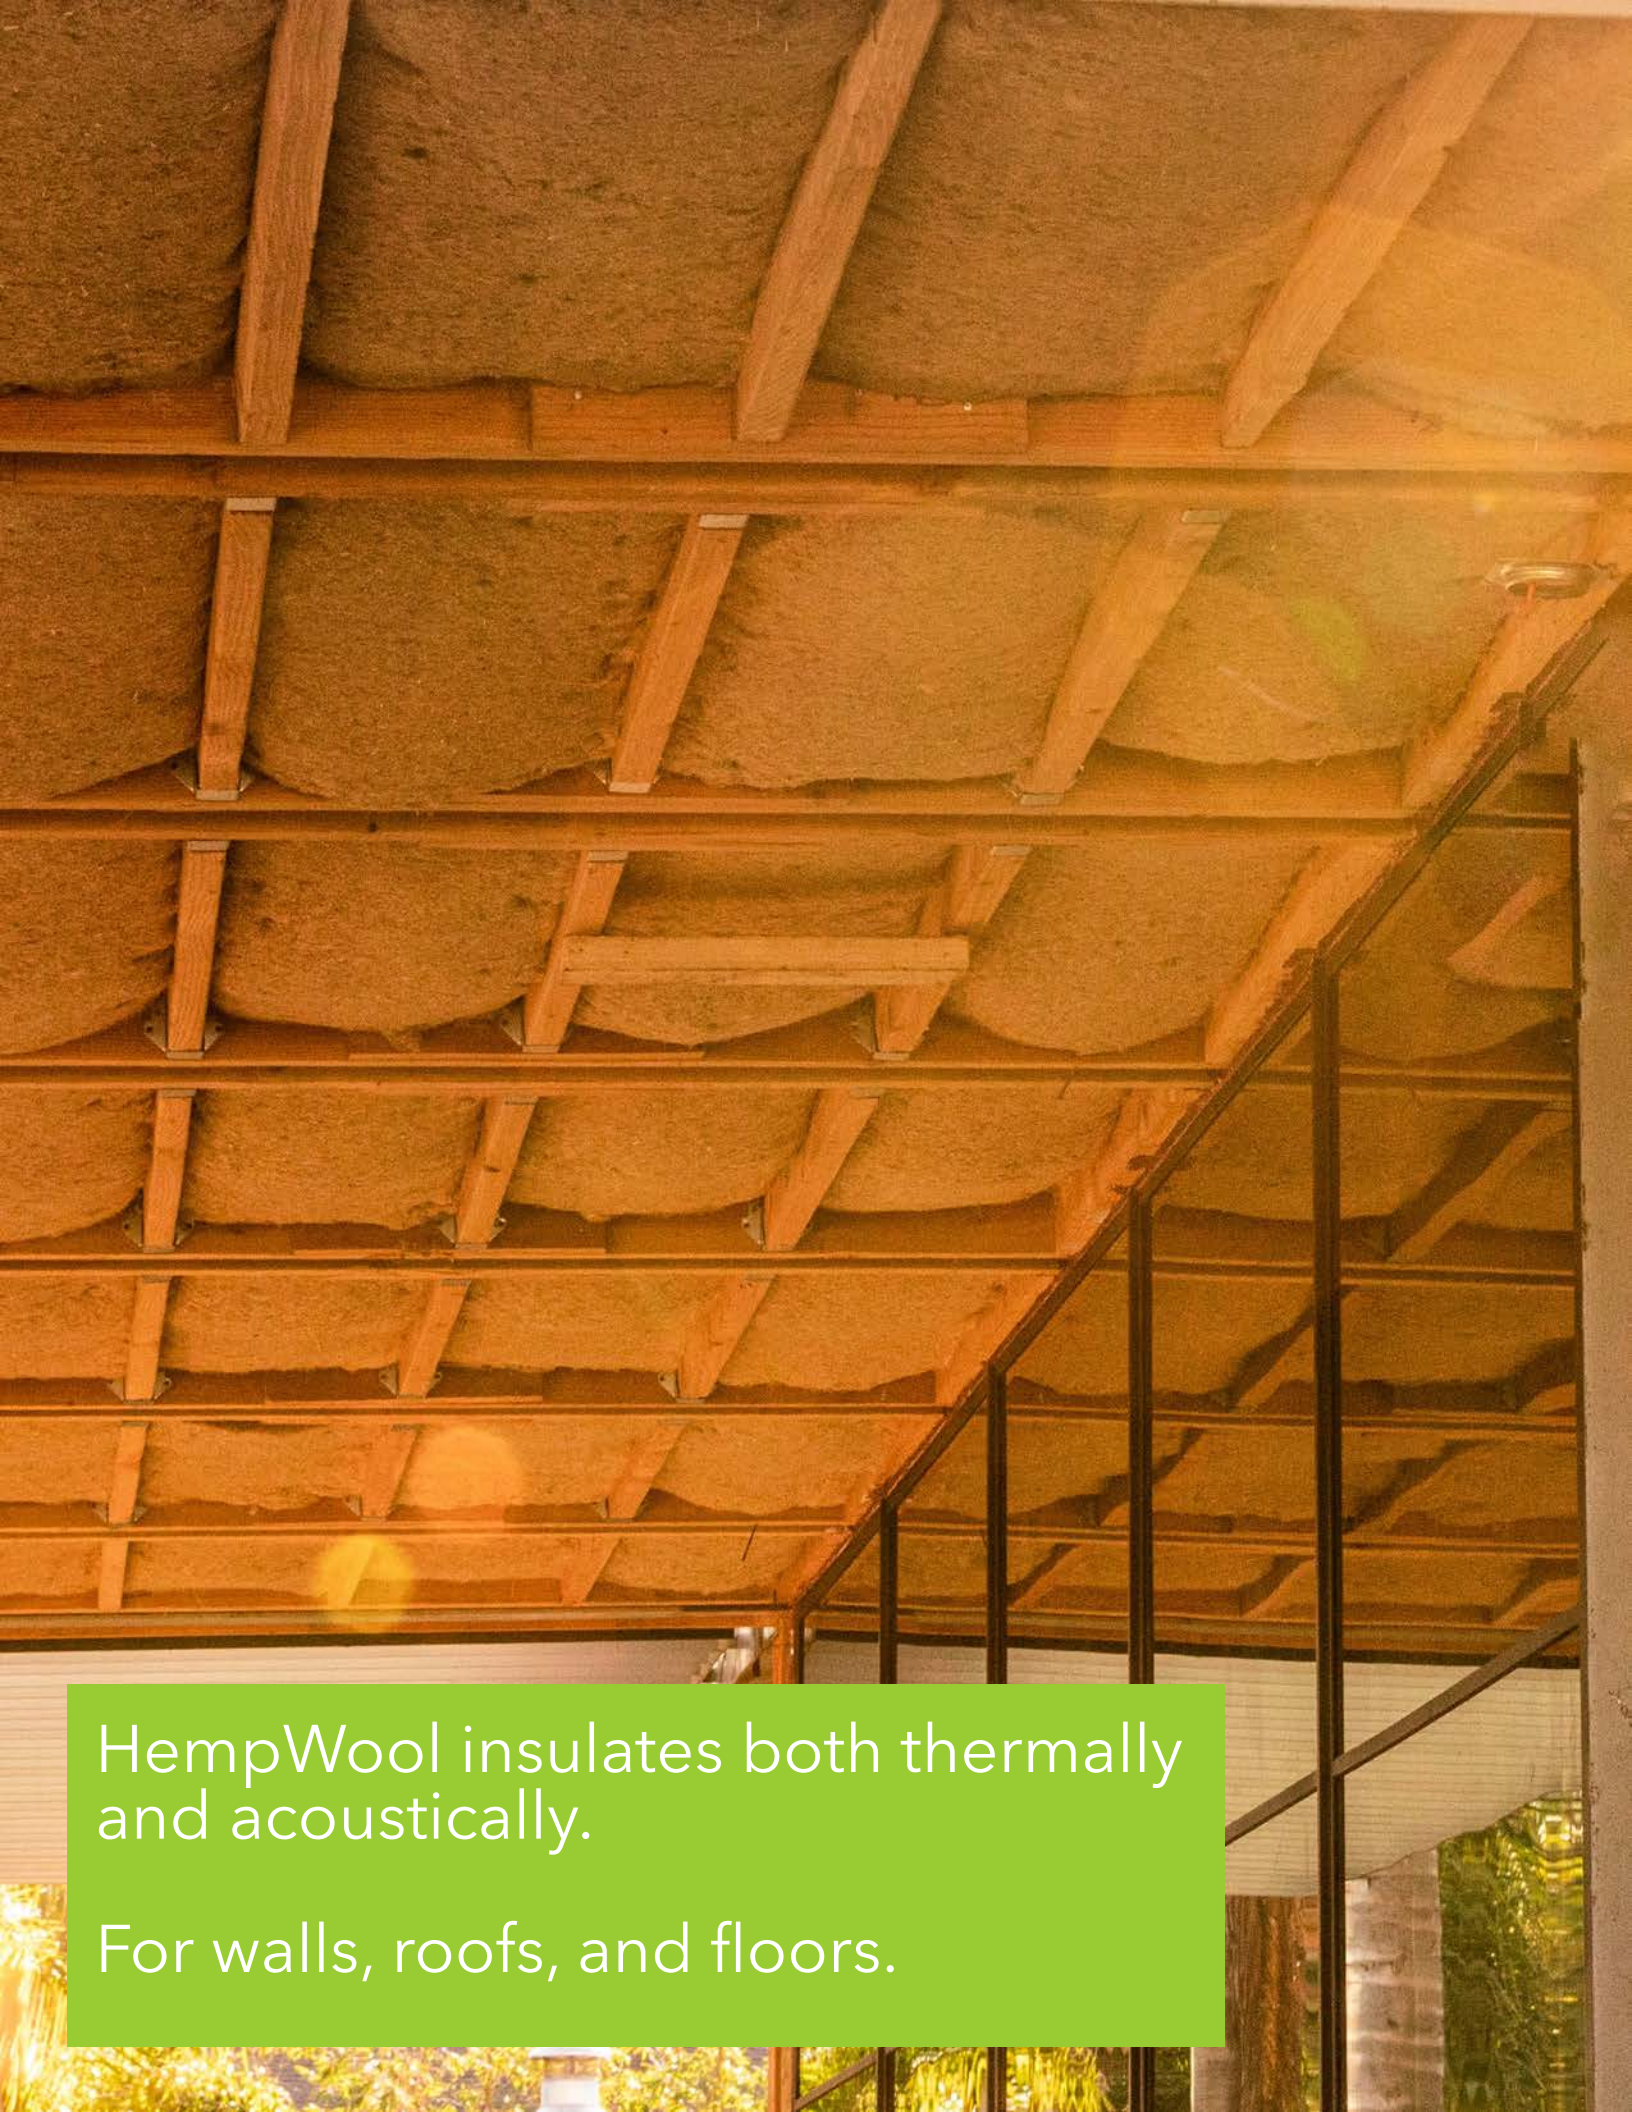

A fiber batt product for a healthier home

HempWool is available in various depths and widths to meet your needs.

HempWool can be cut and modified for any custom build.

HempWool insulates both thermally
and acoustically.

For walls, roofs, and floors.

A close-up photograph of golden-brown hemp wool fibers. The fibers are thick and fibrous, with a natural, slightly uneven texture. The lighting is warm and directional, highlighting the individual strands and creating soft shadows. The background is dark and out of focus, making the wool the central focus of the image.

HempWool for a better home.
HempWool for a better life.
